

Expand Tower

Product specification:

Expand TOWER is yet another effective medium to attract attention. Its round shape enables innovative presentations that take up a minimum of space. The tower helps you communicate your logo and/or message effectively.

For maximum attention, two lighting options are available: front lighting with downlights and back lighting from inside. Expand TOWER comes in a solid nylon bag.

Covering / long graphic panel or backlit laminated

Size of graphics: 2070 mm in width x 2235 mm in height
Size of panels: 690 mm in width x 2235 mm in height (three panels)
