

OctaQuick

Product specification:

OctaQuick is a portable exhibition stand which guarantees fast and easy set-up. It involves no additional costs for assembly or auxiliary personnel. Four basic sets are available for small to medium sized exhibition spaces. What they all have in common is technological excellence,

an elegant design and easy, rapid handling. OctaQuick can be used as a display system, a complete trade fair stand or a special solution for shop-in-shop modules. With OctaQuick, the cost and time needed for set-up and dismantling are a thing of the past.

Versatility:

Discover the versatility of individual company displays and product presentations and find out hitherto unexploited opportunities for successful customer acquisition.

Accessories/Assembly:

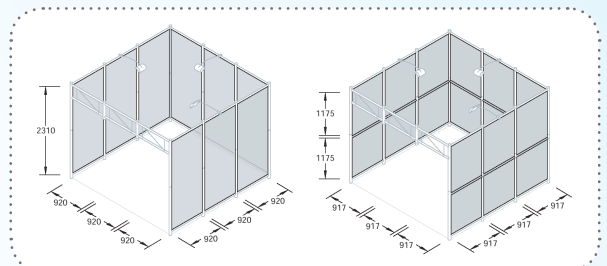

Easy transport

Easy assembly

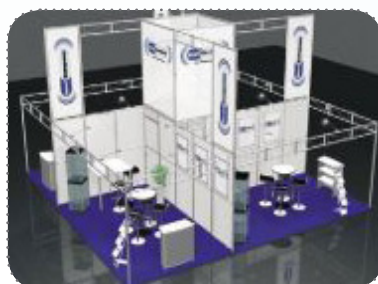

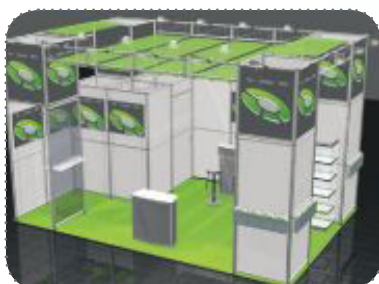

Easy hanging

Assembly option

Sample displays:

Covering: Due to its cord edge, OctaQuick is suitable for all kinds of covering from tarpaulin to high-quality textiles.
