

Expolinc – SOFT IMAGE

Product specification:

Soft Image is a display system especially suited for large-format textile images. Soft Image ensures maximum stability due to angular and reinforced bars. Simply pull the collapsible aluminium frame and the system will pop up.

When carried in a bag, the graphics remain attached to the system to facilitate frequent set-up and take-down. Soft Image can be used over and over again as changing the graphics requires little effort.

Covering:

The system comes with the textile display B1 205 gr and is available with and without side hoods. The fabric on the back is tailored with a 50 mm frieze band. Printing takes

place with thermal dye sublimation printers (Dysub). The graphic is machine washable at 30° C (no spin cycle).

Sizes in mm: available in sizes (L) 2250 mm, (XL) 2450 mm and (XXL) 2980 mm. Size excluding side hoods

Height 2250 mm (L)

1 x 3 panels	780 x 2250 mm
2 x 3 panels	1510 x 2250 mm
3 x 3 panels	2250 x 2250 mm
